

# INTERNATIONAL LASER CONFERENCE

6<sup>TH</sup>-7<sup>TH</sup> SEPTEMBER, 2019

LA BADIRA LUXURY HOTEL  
HAMMAMET

The International Laser Conference is the reference event for all professionals who wish to be updated on the use of laser technology in dentistry. Organized by Master Class Academy and Genoa University, Congress will focus on different topics: periodontology, implantology, endodontics, restorative dentistry, pain therapy, and others. In the wonderful location of the Resort La Badira, participants will be able to attend fascinating keynotes of international speakers, along with multiple social and networking opportunities to relax and make new friends while learning on the most innovative laser technology can offer today.

**We look forward to seeing you in Hammamet.**

# SPEAKERS

GENOA  
UNIVERSITY

*Alberico Benedicenti*

*Stefano Benedicenti*

*Bilel Maraoui*

*Mark Cronshaw*

*Francesco M. Manconi*

*Hoda El Hallal  
Rezkallah*

*Jihad Habli*

*Riccardo Poli*

*Eugenia Anagnostaki*

*Gianluigi Caccianiga*

*Rita El Feghali*

*Steven Parker*

*Nunzio Tempesta*

*Benito Capobianco*

*Hany Amin*

*Hala El Menoufy*

*Gérard Rey*

Honorary guests from  
Misr University El Cairo and  
Université Paris Diderot.

# PROGRAM FRIDAY 6<sup>TH</sup> SEPTEMBER

8:30-9:00	Registration of participants
9:00-9:30	<b>Welcome speech</b> <i>Prof. Stefano Benedicenti   Prof. Alberico Benedicenti Prof. Bilel Maraoui   Prof. Hany Amin   Prof. Hala El Menoufy</i>
9:30-10:15	<b>Laser use in peri-implantitis. What is the challenge?</b> <i>Prof. Steven Parker</i>
10:15-11:00	<b>Laser periodontal therapy: from research to daily practice</b> <i>Prof Gerard Rey   Prof. Gianluigi Caccianiga</i>
11:00-11:30	Coffee break
11:30-12:15	<b>Photobiomodulation – from Genoa University to the dental clinic</b> <i>Prof. Mark Cronshaw</i>
12:15-13:00	<b>Laser-assisted oral soft tissue management</b> <i>Prof. Hoda El Hallal</i>
13:00-14:00	Lunch
14:00-17:00	<b>Workshop Erbium-YAG laser technology:</b> Cavity preparation and oral hard tissue management by erbium-YAG laser  <b>Workshop Diode laser technology:</b> Periodontics protocols and oral soft tissue management by diode laser

# PROGRAM SATURDAY 7<sup>TH</sup> SEPTEMBER

9:30-10:15	<b>Laser-assisted pediatric dentistry</b> <i>Prof. Riccardo Poli</i>
10:15-11:00	<b>The minimally invasive approach of erbium laser technology in bone and regenerative surgery</b> <i>Prof. Benito Capobianco</i>
11:00-11:30	Coffee break
11:30-12:15	<b>Professional tooth whitening by laser technology: tips &amp; tricks</b> <i>Prof. Eugenia Anagnostaki</i>
12:15-13:00	<b>Erbium lasers in restorative dentistry</b> <i>Prof. Rita El Feghali</i>
13:00-14:00	Lunch
14:00-14:45	<b>Effective application of laser technology in endodontics</b> <i>Prof. Francesco Manconi</i>
14:45-15:30	<b>Lasers, botox and fillers for the aesthetics of the lower third of the face</b> <i>Prof. Jihad Habli</i>
15:30-16:15	<b>Complementarity within diode and erbium laser technologies in high-level aesthetic treatments</b> <i>Prof. Nunzio Tempesta</i>
19.30	Certificates of Attendance ceremony. Closing Party.
