

DISTILLER

doctor smile®
dental laser

Doctor smile water distiller and purifier makes 2 litres of pure water in 3 hours, enough to fill the PLUSER's tank.

The water gradually reaches 100°C thus removing:

- most viruses, bacteria, organic and inorganic substances
- chemicals and metals are deposited on the bottom
- impurities and odours are eliminated

The water is also purified by the carbon filter.

TECHNICAL DATA

Model name/ certification code	doctor smile DISTILLER / LAACS067.1
Size	d 200 mm, h 360 mm weight 3.5 Kg
Voltage available	AC 100V/60Hz, AC 220V/50Hz, AC 110V/60Hz, AC 230V/50Hz, AC 120V/60Hz, AC 240V/50Hz
Capacity	4 l
Max power absorbed	580W
Accessories included	Stainless steel basin, jug for water collection, cleaning product
